ULTERIORI INFORMAZIONI:

The "T2 PTM 8036/15-15 HORIZONTAL" blanking press is designed to blank food packaging, plates, glasses, and trays made of plastic material in a continuous and fully automatic cycle.

It uses thermoplastic materials in coils of variable width and thickness depending on specific needs.

The "T2 PTM 8036/15-15 HORIZONTAL" is a blanking machine designed for high production and for this reason it must be placed in line with a thermoforming machine.
