T2 LINE 8080/15-20-CE

TERMOFORMATRICE

USATO/A

COLORE: GRIGIO

ULTERIORI INFORMAZIONI:

The "T2 LINE 8080/15-20" thermoforming machine is designed to produce food packaging, plates, glasses, trays in a continuous and fully automatic cycle and to use thermoplastic materials (PP-PS-OPS-EPS-PET-CPET) in reels of variable width and thickness depending on the mold and the product to be thermoformed. The movement is completely mechanical, pneumatic, and/or hydraulic are used only for auxiliary functions. The "T2 LINE 8080/15-20" is a forming machine aimed at medium production and must be put in line with a press (PTM) that allows the production of perfectly cut pieces.

MAX FORMING AREA (mm) 700x1000

MAX FORMING DEPTH (mm) 120

MAX SHEET WIDTH (mm) 800

SHEET FEED (mm) 1050

MOULDS MAX OVERALL DIMENTIONS (mm) 750X1050

CLOSED PLANES GAP (mm) 670

MOBILE PLANES STROKE (mm) 120-180

PLANES CLOSING ADJUSTAMENT (mm) 3

PLANES CLAMPING FORCE (kg) 25000

MAX SPEED (cycle/minute) 1-50
